

Thank you for your interest in supporting the Midwest Drift & Drags!

The Midwest Drift & Drags is the culmination of 9 years of event planning. Drawing on the most popular styles of racing and masterfully blending them together in one day. It has been an exciting journey, of which we've had the privilege of collaborating with many great companies including Saleen, Ames Ford Performance, Diode Dynamics, Ford Performance, RTR, and others.

The Midwest Drift & Drags offers both expedition and competition level drifting run by Off The Line Performance. This offering allows both novice and highly skilled racers to shred all day further developing their skills. We are offering up a massive \$5k purse to draw in racers from around the country. While the drifting is going on there will also be drag racing on the Midwest's premier track, Cordova Dragway. We will be running everything from mild street cars to gangster small tire cars. The drag racing will be run by the small tire king - Jordan Sharp. Payouts of up to \$5k per class drawing racers from the Midwest and beyond.

Our mission is to help grow and cultivate a thriving car community. In an effort to do so, we focus heavily on providing unparalleled opportunities for those who attend our events. This is accomplished by working with local and national sponsors.
